HIROMI

By age 12, Hiromi was already performing in public – by age 17, she played with Chick Corea! One of her mentors in Berklee was veteran jazz bassist Richard Evans. Evans co-produced "Another Mind", her debut album, with longtime friend and collaborator Ahmad Jamal. Hiromi is constantly drawing inspiration from virtually everyone and everything around her. This week, Hiromi returns to Marians Jazzroom – for the first time as solo piano artist - for yet another week of excitement!
